

## REACH - Declaration

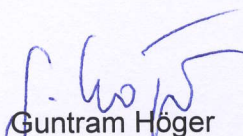

The company Loetec Elektronische Fertigungssysteme GmbH is as manufacturer of products a "downstream user" in the sense of REACH. As a "downstream user" is the company Loetec Elektronische Fertigungssysteme GmbH neither obliged nor required for registration according to the REACH regulations.

The products we supply to you are as manufactures (goods) nonobligatory for registration. Consequently the in our products enclosed chemical materials, which potentially are liable to registration must be registered by our suppliers only.

Furthermore, we immediately inform you in correspondence to REACH-Article 33 if any substance of content (as from a content of > 0,1%) in our goods will be classified alarming by the European Agency for Chemicals ECHA. Based on the current status, however, we do not expect such an incidence.

In our own interest and in order to guarantee a high level of product safety for our customers we are intensively pursuing the realization of REACH and hence resultant requirements. In particular we are in close contact with our suppliers of chemistry and prepared material which we include in our production processes (e.g. auxiliaries like lubricants, pastes, colours, varnish etc.). Basically our processes are about widely-used applications which are operated by many industries in large tonnages. In light of this many of our suppliers had already signaled to us that a pre-registration and/or later registration of the relevant materials in REACH is carried out.

With best regards  
Loetec Elektronische Fertigungssysteme GmbH

Guntram Höger  
Managing Director
